

The PM350 is without doubt the most ergonomic ozone cabin on the market. This "lying" cabin can be regarded as a trendsetter. The relaxation is also an absolute added value. The PM350 ozone cabin is made of high quality polyester, coloured in medical white. The closed tunnel system guarantees the very fast warming up of the cabin. The PM350 produces approximately 250 mgr/lozone as standard. Good sealing and internal filtration guarantee that practically no ozone arrives in the working air. Microprocessor-controlled operation ensures flawless working, where all values can be set. ■

PeauMax™  
PM350

### Technical specifications

WEIGHT : 39Kg  
EXTERNAL DIMENSION : L1880 X H963 X W800 MM  
POWER : 220V/50Hz -1250Watt  
OZONATOR : 250mgr/l  
LIFTERS TO OPEN : 2 x 15 Kg  
POLYESTER : FLAMABLE RETUTANT UL4/CAT2  
FILTERING : BY ACTIVE COIL
